

## Peak Pressure Indicator MSI-3

### Engine Indicator

The MSI-3 peak pressure engine indicator is designed for displaying the maximum value of gas pressures which are subject to constant and rapid variations. The device is particularly suitable for applicational tasks on Diesel engines.

## Description

---

The MSI-3 peak pressure engine indicator is designed for displaying the maximum value of gas pressures which are subject to constant and rapid variations. The device is particularly suitable for applicational tasks on Diesel engines.

*MSI-3 complete in wooden box*

## Features

---

- Measuring range up to 250 bar
- Easy handling
- High accuracy in all speed ranges
- Extremely robust, low maintenance
- Insensitive to vibration
- Steel-manometer in safety construction

## Technical specifications

---

Measuring ranges	: 0–160 bar, 0–250 bar
Error margin	: $\pm 1.6 \%$
Engine range	: up to $n = 2,500$ rpm
Dimensions	: 210 mm x 155 mm x 60 mm
Weight	: 1.9 kg without wooden box 3.2 kg with wooden box

## Standard accessories

---

- 1 wooden box
- 1 hollow spanner - connecting nut
- 1 measuring log pad
- 1 ball-point pen
- 1 operating instructions
