

## Leutert Quick Clamp

### Special Purpose Tools

The Leutert Quick Clamp is designed to fix a tube or round body for easier handling, e.g. tightening of joints. The inner diameter can be customized according to customer's needs, so it is suitable for all kind of tools like, memory gauges, samplers or any other round downhole tools.

The Quick Clamp is part of the "Operating Tools for Samplers and Cylinders" (P/N 100108).
